 Nainital, Uttarakhand

 21/August/2003

TECHNICAL SKILLS

- Production Planning & Process Support
- Basic Machine Troubleshooting
- Lean Manufacturing & 5S
- Assembly Line Operations
- Preventive Maintenance
- MS Excel, Word & PowerPoint
- Power BI (Basic)
- FULLSTACK Development (Next.JS, NodeJS, MongoDB)

EDUCATION

Govt. Polytechnic College	(2021–2024)
Electrical Engineering	— 79%
Code Yogi (Online)	(2022–2023)
Frontend Developer	
Bishop Shaw School	(2019–2021)
Intermediate (PCM)	— 60%
Sanwal School	(2019)
High School	— 64%

KEY SKILLS

- Team Collaboration
- Problem Solving
- Leadership & Management
- Adaptability
- Communication

CERTIFICATES

- Code Yogi Certificate (Frontend Development)
- Electrical Apprentice Certificate
- NCC 'C' Certificate

ADDITIONAL INFORMATION

Industrial Training (2023)

- 28 Days in Electrical Substation (33/11KV) Nainital
- 28 Days in Water Substation Nainital

PROFILE

Diploma Engineer in Electrical Engineering with one year of industrial experience at Tata Motors, Pantnagar, in Electric Vehicle manufacturing and Mechatronics. Experienced in production support, assembly operations, pneumatic and hydraulic systems, ECU fundamentals, process improvement, manpower coordination, and technical training. Familiar with Lean Manufacturing, 5S, quality systems, MS Office, and Power BI. A quick learner with strong technical aptitude, problem-solving, communication, and teamwork skills. Also possesses basic web development knowledge. Eager to learn, contribute, and grow in a challenging engineering environment.

WORK EXPERIENCE

• Tata Motors Pantnagar (2024–2025)

Diploma Apprentice Trainee

- Assisted in Electric Vehicle production and assembly-related activities.
- Conducted technical training on EV electrical architecture, ECUs, pneumatic and hydraulic tools.
- Supported continuous improvement initiatives for productivity and process efficiency.
- Worked with assembly equipment, industrial tools and troubleshooting activities.
- Collaborated with production and maintenance teams to ensure smooth shop-floor operations.
- Followed workplace safety standards and quality procedures during manufacturing activities.

• Uttarakhand Power Corporation Limited, Haldwani (2025–continue)

- Performed data analysis using Power BI for smart meter installation and upgrade monitoring.
- Assisted in preventive maintenance and field operations.
- Created Office Management website to track office employee & their work.
