

ABHIJEET SINGH RANA

DIPLOMA ENGINEER – ELECTRICAL ENGINEERING | FULL STACK DEVELOPER

Nainital, Uttarakhand, India | +91-9411387408 | abhijeet.singh.rana@outlook.com | abhijeetsinghrana2003@gmail.com
[Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Diploma Engineer in Electrical Engineering with industrial experience in Electric Vehicle manufacturing, production support, assembly operations, preventive maintenance, field operations, technical training, and Power BI data analysis. Hands-on experience at Tata Motors supporting EV production, EV electrical architecture, ECUs, pneumatic and hydraulic systems, industrial tools, troubleshooting, continuous improvement, safety, and quality procedures. Also experienced in software development with React, Next.js, Node.js, Express, MongoDB, JavaScript, TypeScript, Tailwind CSS, and Material UI.

TECHNICAL SKILLS

Programming & Web	JavaScript, TypeScript, HTML, CSS, React, Next.js, Node.js, Express, Tailwind CSS, Material UI
Backend & Database	Node.js, Express, MongoDB, REST API, API Integration
Data & Productivity	Power BI, Microsoft Excel, Microsoft Word, Microsoft PowerPoint, Microsoft Office
Electrical & Industrial	Electrical Systems, EV Platform Training, Substation Operations, Production Support, Assembly Line Operations, Preventive Maintenance, Basic Machine Troubleshooting, Pneumatic Systems, Hydraulic Systems, ECU Fundamentals, Lean Manufacturing, 5S, Quality & Safety Procedures
Other	Arduino Basics, Technical Training, Manpower Coordination, Process Improvement, Field Operations

PROFESSIONAL EXPERIENCE

Uttarakhand Power Corporation Limited (UPCL) Haldwani	November 2025 – Present
<i>Electrical / Technical Operations — Contractual</i>	
- Performed Power BI data analysis for smart meter installation and upgrade monitoring. - Supported preventive maintenance, field operations, and monitoring of smart meter installation and upgrade activities. - Developed an Office Management website to track office employees and their work activities. - Applied software development and data-analysis skills to support office and operational workflows.	
Tata Motors Pantnagar	September 2024 – September 2025
<i>Diploma Apprentice Trainee</i>	
- Supported Electric Vehicle production and assembly-related activities on the manufacturing shop floor. - Supported production operations involving EV electrical architecture, ECUs, pneumatic systems, hydraulic systems, and industrial tools. - Conducted technical training on EV electrical architecture, ECUs, and pneumatic and hydraulic tools. - Supported continuous improvement initiatives focused on productivity and process efficiency. - Worked with assembly equipment and industrial tools and supported troubleshooting activities. - Collaborated with production and maintenance teams to support smooth shop-floor operations. - Followed workplace safety standards and quality procedures during manufacturing activities.	

SELECTED SOFTWARE PROJECTS

FlowZen – Full Stack Kanban App / HRMS

<https://flowzen-azure.vercel.app/>

Productivity and workflow platform for planning work, moving tasks, and keeping project workflow visible.

Technologies: Next.js | Full Stack Development | Workflow

Campus Connect – Full Stack Platform

<https://campus-connect-five-sage.vercel.app/>

College-focused platform built around student interactions and community workflows.

Technologies: React | Node.js | Community Platform

QR App – Full Stack Utility

<https://app-qr-code.vercel.app/>

QR generation application with a simple and direct user interface.

Technologies: JavaScript | API | Utility

Resume Builder – Frontend Tool

<https://resume-creator.vercel.app/>

Resume creation tool focused on editing, forms, and clear output.

Technologies: React | Forms | Builder

Weather App – Frontend Utility

<https://mui-site.vercel.app/>

Weather application providing current conditions using the OpenWeatherMap API.

Technologies: React | API Integration | Utility

Todo App – Frontend Application

<https://class-based-todo.netlify.app/>

Task management application built using a class-based React approach.

Technologies: React | JavaScript | Material UI

EDUCATION

- Government Polytechnic Nainital College — Diploma in Electrical Engineering | 2021–2024 | 79%
- Code Yogi — Frontend Development | 2022–2023
- Bishop Shaw School — Intermediate (PCM) | 2019–2021 | 60%
- Sanwal School — High School | 2019 | 64%

INDUSTRIAL TRAINING & CERTIFICATIONS

- Electrical Substation (33/11 KV), Nainital — 28 Days, 2023
- Water Substation, Nainital — 28 Days, 2023
- Code Yogi Certificate — Frontend Development
- Electrical Apprentice Certificate
- NCC 'C' Certificate

CORE COMPETENCIES

Problem Solving | Team Collaboration | Technical Communication | Leadership | Adaptability | Technical Training |
Process Improvement | Manpower Coordination | Workplace Safety
